Subject: BDCP wetlands assessment and CRAM training

Hello Paul,

I thought our meeting was productive this week. Jean and I are moving forward with both the veg mapping and the functional assessment.

I am putting through the paperwork to get approval to take the CRAM estuarine class given in Costa Mesa in October. I have only taken the Riparian class. I think it is important that Jean take a class also. She hasn't taken the riparian class and it doesn't look like it will be given any time soon. Although it is listed that the riparian class is a prerequisite, do you think she would be able to get into the estuarine class? I notice on the training webpage that you are listed as the contact so thought I would run this by you.

Without a State budget, we need to get special approval so need to get the paperwork going as soon as possible.

Thanks for your help, Gail
